Jewelled Embroidery...

AUTUMN 2006

Falling leaves, rime crystals, misty mornings and crackling fires...

I'm pleased to present to you my Autumn range, with pieces inspired by the turning of the year. Fiery leaves with glinting crystals, rich reds, blues and golds in the Gothic range, midnight blue snow crystals, and (because I'm a gardener) I'm looking forward to the spring with snowdrops and daffodils. There's one or two perennial favourites as well!

For further copies of my catalogue, and for listings of fairs and show I will be attending and outlets which currently stock my work, please ring or visit my website.

For embroiderers, the leaf kit is available in two colourways, and I am available to teach your group! Please ring me for further information.

Thank you.

When sending cheques, always put your name and address on the back of the envelope.

You're more likely to get it back if it goes missing.

Returning Goods

Buy with complete confidence.

I have tried to describe the pieces as accurately as I can. They are handmade, and since both printing and thread colours vary, you may not get quite what you expected.

Hallmarking.

All silver pieces have sterling silver earwires with the 925 stamp on. Gold earwires do not have a hallmark; as the earrings are mostly thread and the metal parts weigh less than a gram, they are exempt from hallmarking rules.

The Distance Selling Regulations give you the right to return the piece(s) in good condition (paying return postage) within seven working days of receiving it, and get a prompt full refund. You don't have to give a reason (although it is useful for me to know why you may not have liked the piece). If any piece is faulty, let me know as soon as possible, and I will arrange for its return and replacement or refund.

Pieces can be altered. If any problems arise with the jewellery, or you would like some changes making, please let me know as soon as possible and I shall be happy to fix, replace or alter the item.

There will generally be no charge for mending or replacement. Items are designed to last as long as possible. I do reserve the right to make a small charge for mending older pieces, but will always advise you what this is and give you the choice whether to proceed.
